
Extreme Weather Conditions in the Carolinas **December 7th, 2018**

Based on the extreme weather projections for this Sunday (12/9) and Monday (12/10), we are preparing for what could be a disruption to our weekly operations. If road conditions are unsafe for travel, deliveries will be suspended until they become safe again.

We are offering all customers a Saturday delivery. In the event that we are unable to safely deliver your produce on Monday we will deliver all Monday and Tuesday orders on Tuesday in all accessible areas of our distribution map.

Please remember, the inclement weather hotline will be updated with our operational plan as decisions are finalized. By calling into the main line (336-662-0571 or 800-289-8344) and dialing 9, you will be directed to the inclement weather hotline.

If the storm passes without the intended snow and ice accumulations, we will operate under our normal schedule.

If you have placed an order and know you are not opening for business, please inform us via email at: closings@foster-caviness.com
